

# Uncancelable Health

Patented X39 Patch

**For every decade you've been alive, we recommend one month of patching with X39 to experience optimum results.**

While you await the arrival of your X39 patches, we recommend having these on hand, if you don't have them already:

*Epsom salt*  
*Spring water*  
*Magnesium supplement*  
*Electrolytes*  
*Celtic Salt*  
*Brazil nuts*  
*Bananas, fruits, veggies*

**Stay hydrated for maximum results.**

*X39™ elevates GHK-Cu peptides known to enhance stem cell activity and reset genes to a younger and healthier slate. Supports cellular repair, relief of minor aches and pains, wound healing, healthy inflammatory response, energy and better sleep.*

**12 hours on -  
12 hours off for your body to respond.  
Rest is as important as wearing!**

Some users of this patented technology choose to wean on - starting at half (6 hours) to build up to 12 over a few days. Choose your personal experience. Keep in mind, the patches are designed to trigger GHK-cu peptide production, which will find your own body's area of need. Results vary for everyone! We've heard of one patch wonder stories but keep your expectations realistic.

Would you expect an outcome after the first day at a gym or exercise plan? No. Invest time in yourself - we can't wait to hear how your personal journey looks with Lifewave!
